SUMMARY

Psychology student with nearly 7 years of fully remote work for an international client, a major UK online retailer, plus BPO experience on the Airbnb account at 24-7 Intouch. Knows first-hand what customer support and back-office roles demand, which helps in screening and assessing candidates for them. Strong interpersonal and written communication, with a professional, empathetic approach to every person I deal with. Organized and detail-oriented, with a track record of keeping records accurate and confidential, tracking many cases at once, and following processes from start to finish. Proficient in Microsoft Office and Google Workspace, and experienced creating online content, landing pages, and email sequences. Eager to apply a grounding in human behavior from psychology studies to the full recruitment cycle: sourcing, job posting, resume screening, interviews, pre-employment requirements, and onboarding.
